DAWN TO DUSK is a group exhibition at Forum Gallery in New York, running from June 12 to August 1, 2025, showcasing works by 23 artists exploring the themes of air, light, and atmosphere. The exhibition features landscapes, figures, and urban scenes that capture the emotional and sensory effects of natural light from sunrise to twilight. Highlights include expansive landscapes by Robert Bauer and Tula Telfair, precise realism from Davis Cone and Frederick Brosen, and evocative figure paintings by Alyssa Monks and Alan Feltus. United by technical mastery and emotional resonance, the artists interpret unseen elements through their unique perspectives on time and environment.
